# What we've accomplished so far...

- Created an safe abortion supplies workstream within the Coalition and called for interested members to join this effort
- Initial calls/emails to inform members of this new workstream
- Webinar to share findings from previous Innovation Grants related to abortion
- Drafted workplan (to discuss today)
- New email list serve established for Workstream members

Goal: Increase  
access to and  
awareness of high  
quality abortion  
supplies globally

# Purpose: Implement collective actions to increase, expand and improve access to high quality safe abortion supplies

## Outcome 1

Abortion supplies integrated into broader Coalition discussions about RH supplies

## Outcome 2

Generate new evidence and disseminate existing evidence on quality products

## Outcome 3

Increase mifepristone, misoprostol & MVA availability

## Outcome 4

# Activities

## Outcome 1

Abortion supplies integrated into broader Coalition discussions about RH supplies

Conduct Webinar series

Ensure coordination & outreach to implementing mechanisms to share info about abortion supplies

Outreach to other key players in abortion field to join RHSC and this working group

TBD

TBD

## Outcome 2

Generate new evidence and disseminate existing evidence on quality products

Develop framework to ensure quality of QA MAB products along supply chain

Disseminate framework

Develop global MA commodities DB to share info on availability of quality MA commodities

Undertake an aggregation & dissemination of current resources and data

Disseminate existing resources around quality (e.g. Pharmacopeia for misoprostol) pricing and procurement strategies for MAB medicines

TBD

## Outcome 3

Increase mifepristone, misoprostol & MVA availability

Identify barriers & develop strategies for decreasing costs related to pre-qualifying products

Global assessment of market for MA combi-packs

Focused assessment of market for MA combi-packs to identify entry points

Develop fact sheet on global MVA availability and issues with access

Prepare and submit application to WHO EML to list misoprostol for its induced abortion indication

## Outcome 4

TBD

TBD

TBD

TBD

TBD

Thank you! Any questions?
