

Interactive School Mini - Media Talk Show for SRHR

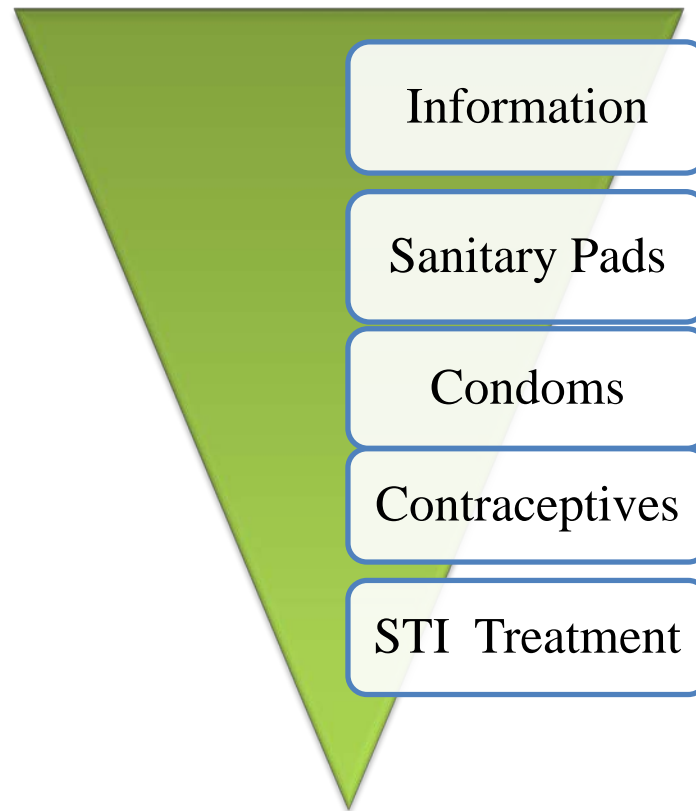

By

Firehiwot kassa Mohammed

Youth Champion

Needs of Target Population

They need both information and services.

Innovative

- Using school mini - medias to aware students about SRHR
- It targets a huge number of audiences at a time.
- Manually guided, and interactive talk show with service linkage

Key activities/ Strategies

- Develop manuals
- Make the services youth friendly.
- Capacity building training
- ‘Let’s Talk’ 15 minutes talk show

Outcomes/ Achievements

- Manuals has developed.
- 15 participants have trained
- The school mini media practitioner's especially youth's awareness on SRHR has well improved.

Cont...

- 70 talk shows has broadcasted
- Student awareness on SRH has increased
- The number of youths who have visited health service centers are increased

Cont...

- 18 participants have visited Fistula Hospital
- The innovative strategy could attract the attention of other organization

Challenges

- The political situation
- Sometimes school Mini - medias were off due to exam and other programs of school.
- It was not allowed to distribute condoms and other contraceptives in the school compound.

The way forward/next steps

To scale up the project to other schools in the city or located in different regions of the country.

Broadly, I need to scale up to national medias to address more young population.

Thank you!
